His Majesty
UDURHIE I, J.P.
The Ovie of Mosogar Kingdom

LETTER OF COMMENDATION

On behalf of Mosogar Kingdom, I write to appreciate and commend the management of Benin Electricity Distribution Company over the effort made in the face of many odds in the restoration of power supply to Mosogar community.

This commendation has become necessary in view of the untold hardship the community experienced during the power outage period as a result of the faulty Mosogar 2.5 mva powered transformer.

In the circumstance I recalled how (3nos) 2.5 mva transformers brought for the replacement of the faulty one also packed up coupled with the vandalism of some of your electrical installation materials.

Indeed, words are insufficient to express the depth of our happiness over your resilient and doggedness for power restoration and I wish to state categorically that we shall reciprocate this gesture by ensuring our maximum cooperation to BEDC in this kingdom.

While thanking you once again please accept the assurance of His Royal majesty.

Highest Regards.

Dear Sir,

LETTER OF ATTESTATION/APPRECIATION

The above named organization would like to attest to the following facts about the Benin Electricity Distribution Company (BEDC) services towards our operations.

- That there has been a significant improvement in the supply of power since the beginning of the privatization process.
- Response time to consumer complaints has improved.
- The staff are cordial and exhibit high level of professionalism in the course of carrying out their duties.
- Average power supply now ranges from 12 hours to 15 hours daily as against the previous case of 2 to 5 hours daily.

We are of the opinion that we have already begun to take small steps towards the resolution of the power issue in Nigeria and would love to use this opportunity to applaud the privatisation initiative.

Yours faithfully,

Chinedu Uyalor
